Ms. Pompa,

I am reviewing the application for the building permit #BLDF19-0311 for the property at 1231 Van Buren Drive and have some questions as follows:

1. It appears that the new deck will be located on what looks like the upper level from photo provided of the rear of the property. Is that correct?
2. If that is correct, why are the existing patio and deck off the lower level being removed?
3. If the lower level deck and patio are removed, what type of pad will be outside of the sliding doors and the other standard door at the lower level? Usually a pad is required outside of doors.

Thank you,
Cynthia
